BLACK LIGHT THEATRE

Let us discover the secret of the Black light theatre - old optical trick, which has been involved originally in China and later on used in Japanese puppet theatre. The technique employed by the Black Theatre is the use of black curtains, a darkened stage, and black lighting paired with fluorescent costumes in order to create intricate visual illusions. Although this performance style can be found in many places around the world, nowhere is it more prolific or specialized than in Prague. We offer you short theatre performance in duration of 30 - 40 minutes. We might add your company logo and products into the play. We arrange theatre props and decoration on round banquet tables and among the tables. Before the theatre show we light up UV effect lamps and props start to shine.
